Company Profile

Access Pipeline Inc. (ACCESS) operates a heavy oil transportation pipeline network servicing facilities in the northeastern region of Alberta. Our head office is located in Calgary, with primary field operations and pipeline control centre located in Fort Saskatchewan. ACCESS also maintains field offices in Sturgeon County and in Conklin, Alberta.

We operate two distinct pipeline networks:

Diluent System: ACCESS operates pipelines in the greater Edmonton area designed for the purpose of gathering and delivering diluent to our Sturgeon Terminal facility located near Redwater.

Blend System: The Bitumen Blend pipeline system consists of a 297 kilometer 42" pipeline and a 50 kilometer 30" pipeline. The Bitumen Blend system originates in Northeastern Alberta gathering product from facilities near Christina Lake.

Products

- Diluent and Blended Bitumen
