

## Canexus Chemicals Canada LP

### North America Terminal Operation (NATO) (Operational)

[www.canexus.ca](http://www.canexus.ca)

#### Company Profile

---

The Canexus (NATO) distribution terminal has direct access to both CP and CN rail service and is strategically located 1km from Highway 15 to the north and Highway 45 to the south. The Canexus site has existing capacity to load condensate, butane, ethanol, biodiesel, diesel, fracking fluids, caustic soda and hydrochloric acid from rail cars to trucks. The terminal has existing capacity to load crude oil and diluent bitumen from truck to rail cars.

The terminal has also constructed a pipeline to rail loading operation in 2013 called Unit Train. The Canexus Unit Train operation will load up to one hundred and eighteen (118) railcar shipments of diluted bitumen ("Dilbit") each day. The Dilbit is received via a new pipeline and it is temporarily stored in one of two 120,000 bbl above ground storage tanks until it is loaded into a unit train.

#### Products

---

- Rail to truck terminaling. Truck to rail terminaling. Truck and rail logistic management services.
