

Sustainability. Community. Innovation.

The Northeast Capital Industrial Association (NCIA) has been a part of Alberta's Industrial Heartland for over 40 years, and with one enduring mission: to be the voice of industry for our region. We support sustainable industrial growth and ensure a continued high quality of life for the people who live and work here.

NCIA's member companies are industry leaders. They protect the air we breathe, the water that sustains us and the neighbourhoods we call home.

Our Member Companies

- 22 diverse members ranging from large integrated global chemical and petrochemical companies, fertilizer and metals manufacturing facilities to smaller industrial service companies.
- Member companies directly employ 7,100 people (including long-term contract employees and turnaround contractors) which creates an additional 25,000 indirect jobs.
- This translates into a payroll of \$710 million (direct jobs) and provincial tax revenues from NCIA employed persons of \$71 million.
- Member companies spend over \$2 billion annually to purchase goods and services in the region – not including utilities and feedstock for their operations.
- Current industrial investment in manufacturing plants and infrastructure (NCIA members only) in the region is about \$43 billion. We expect that to grow by another \$15 billion in the next 10 years.
- Municipal taxes paid by NCIA members in 2022 were \$141 million plus \$9.6 million in education taxes.
